THE CONTRACT LANGUAGE

Varaschin®

INSPIRED_ **The contract language**

The concept

Chiunque ama la natura, ne scoprirà la gioia dei colori, il senso dei profumi.
Chiunque ama il gusto, scoprirà il piacere della convivialità.
Chiunque ama la propria casa, apprezzerà l'accoglienza di una suite.
Così, viaggiando, scopriamo che il confine tra spazio domestico e contract è una linea invisibile.
Inspired è un viaggio dedicato alla scoperta delle infinite possibilità di utilizzo delle collezioni Varaschin.
Da sempre i nostri prodotti rappresentano un mezzo ideale con cui poter trasferire il meglio della nostra arte e della nostra cultura.
Così, i progetti esprimono ed avvolgono la nostra vita.

Nature lovers will discover the joy of colours, the sense of the fragrances.

Lovers of style will discover the pleasure of conviviality.

Those who love their homes will appreciate the comfort of a suite.

And so, on our journey we discover that an invisible line exists between domestic and contract space.

Inspired is a journey dedicated to discovering the infinite potential for use offered by the Varaschin collections.

Our products have always been the ideal way of conveying the very best of our art and culture.

In this way, the projects express and encompass our lives.

The project

Sedie, poltroncine, lounge: i veri protagonisti dello spazio. Le sedute, il nostro codice genetico, i materiali definiscono la nostra cosmetica. Inspired, svela una storia di prodotto raccontata attraverso un mondo contract esteso. Un resort, un ristorante sushi, un'area fitness. Il mondo delle forniture non ha confini così come la nostra collezione di prodotti.

Chairs, armchairs, lounge chairs: the key players in space. Seating is our genetic code, the materials define our cosmetics. Inspired reveals a product history told through an extensive world of contract furniture. A resort, a sushi restaurant, a fitness area: the opportunities for supplying items are unlimited, just like our range of products.

Da sempre Varaschin sostiene programmi che interpretano varie aree dell'ospitalità e non solo. L'universo applicativo delle sedute ci suggerisce nuovi confini che amplificano la capacità progettuale nell'ambito contract invadendo aree di spazi pubblici e privati, dalla cucina agli uffici, dalle sale d'attesa alle suite d'hotel. Tessuto, pelle, legno, metallo, intrecci, sono i nuovi significati del nostro mondo multimaterico sempre attento a sviluppare un programma ampio, trasversale e dalle vaste possibilità di declinazione.

Varaschin has always promoted schemes that interpret various areas of hospitality and more. The universe of seating applications offers us new limits that augment the design capabilities in the contract sector, pervading areas of public and private space, from the kitchen to offices, from waiting rooms to hotel suites. Fabric, leather, wood, metal and woven materials are the new significant elements of our multi-material world, always careful to develop a wide and across-the-board collection, with great potential for variation.

La continua ricerca estetica unita alle idee dei progettisti rende originali tutte le linee tracciate, in un calibrato gioco di vuoti e pieni, per realizzare simmetrie in grado di dischiudere sempre nuovi orizzonti.

The continuous aesthetic research coupled with the original designer ideas traces lines, in a calibrated game of empty and full, to achieve symmetries that can open up new horizons.

BANDS

Questa sedia con o senza braccioli è definita da una serie di bande – da cui il nome della sedia – che vanno a costituire la seduta, lo schienale e i braccioli. È possibile passare da una configurazione all'altra sostituendo la banda del bracciolo con una dello schienale. Le bande di seduta e schienale possono essere gestite in modo da combinare tra loro colori e materiali differenti, creando effetti visivi complessi e particolari.

This chair is shaped by a series of bands that models seat, backrest and armrests. The length of the central band on the backrest indicates the armchair from the side chair. Colors and materials of the bands could be arranged with great flexibility, mixing them in order to create unique and characteristic visual effects.

TURTLE

I dettagli e la postura della sedia Turtle conferiscono alla sedia un aspetto dinamico, garantendo alla sedia un maggiore comfort e un supporto aumentato l'imbottitura dello schienale e della seduta. Abbiamo lavorato sui dettagli sull'impatto visivo e su quello tattile. Il risultato è una serie di superfici ruvide che allineano tutti gli elementi della struttura.

Details and posture of the chair give it a more dynamic appearance. The extra comfort we have achieved is due to the padding on the backrest and seat. We have focused on tactile and visual impact. The result is a series of surfaces that align all the elements of the structure.

Tra i più importanti designer francesi della sua generazione, fonde ispirazioni tratte da elementi naturali e quelle tratte dall'immaginario degli anni'60. È un sostenitore del fatto che il design sia inevitabilmente destinato a un pubblico mainstream e che il designer non è uno specialista di oggetti quanto di una maniera di vita.

One of the most important French designers of his generation, he combines inspiration from natural elements with the icons of the 60s. He upholds that the inevitable destination of design is the mainstream public and that designers are not specialists in objects, but rather in a way of living.

Dai maestri del passato hanno imparato che architetto e designer sono due professioni indissolubili: dai progetti su larga scala, agli allestimenti e ai più piccoli oggetti, amano sperimentare con rimandi alla classicità e con una grande attenzione verso le ultime innovazioni tecnologiche.

The masters of the past have taught them that architect and designer are two inseparable professions: from large-scale projects to creating ambiances and the smallest objects, they love experimenting with one eye on classics and the other on technological innovations.
